

Eclipse ECJ VLJ

Plans for the V-Tail are for 345 knots, 41,000-foot-service ceiling, 1,250-nautical-mile range. Price is anticipated at \$1M.

VLJ Analytics Global Reports shows interest in VLJs from over 130 countries in the last 30 days with 8600 respondents. Russia produced 30! Domestic US analysis shows the states of California with 600 respondents and Florida with 500. Texas was third in domestic North America interest in VLJs with 300.

The effects of the global pilot shortage have resulted in cancellations of flights worldwide. The US legacy carriers are also reporting the first of cancellations because of their lack of qualified candidates. Where will VLJ mentors and pilots come from? VLJ Pilots

I am rebuilding the magazine with a fresh new look but you can rest assured that it will remain only source your source for News, Views, Interviews, and my insights in this Captain's Log during the transition.

Thanks for your comments@verylightjets.com. Please spread the word!

Best Regards-
